Drawers on ball bearing slide system.

WSC0177 WSC0179

LIGHT-DUTY CABINET

The light-duty cabinet, designed for intensive use, presents the perfect alternative to the heavy-duty cabinet. With drawers that open to provide 100% access to contents and the ball bearing slide system, it thoroughly completes the Rousseau line of products. Dividers and plastic bins can be added to facilitate storage of your items.

The standard cabinet housing, 18" wide, is offered 21" deep. A 27" deep version of the cabinet is also offered for improved surface support when used with a workstation. Two cabinet heights are available: 28" and 34". In addition, 4" bases can be added.

Presented here are some of the more popular light-duty cabinet models.

Additional accessories : Cabinet base, divider, shelf, drawer or door lock, folder hanging bars ;

The 12" drawer is designed to hold legal-size file folders. For letter-size folders, order WSC01-18 bars ;
27" deep cabinets are required for 36" deep workstations and are recommended with multi-purpose uprights and on 30" deep mobile stations ;

Doors are factory installed with the hinges on the right side. They may be installed on the left side, upon request ;

Can be ordered with or without locks (drawers and doors). To order a cabinet with lock(s) complete product number with L3 ;

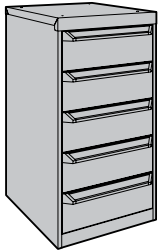

Compatible with L1 locks ; contact your customer service representative.

SEE PAGES 22-23
SEE PAGE 22

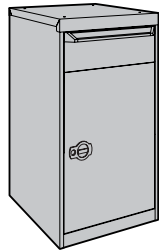

NOTE 27" deep cabinets have the same drawers as 21" deep cabinets.
