## UDL Series

Free water, water aerosols, and water vapor raise havoc on a compressed air system. The Ultra Air Products UDL Series Drip Leg in combination with coalescing filtration delivers an excellent but economical package for ridding a system of this damaging water. Designed with an oversized expansion chamber, the UDL Series offers one of the best water removal efficiencies for drip legs on the market today. With its standard inlet and drain ball valves, the UDL Series offers a terrific solution for any point of use application where a system shutdown may be necessary.

- Standard inlet and drain ball valves.
- Primed and painted exterior
- Expansion chamber is 3 x's the port size for tremendous water removal efficiency.
- 1/4 NPT or BSPP to 2 NPT or BSPP thread size.
- Full port ball valves.
- Flexible part numbering system allows for multiple configurations to best fit the application.
